South Haven, Mich.

F.M. 1934

The parent soil values listed below are from iron, sandy soil which produces very fine, heavy, full rooted specimens. This house will furnish a soil full of iron and sand, and below than a heavier soil in the same proportion. When the soil has no sand, the sand shanks consisting of 1/2" size sand, 1/4" sand, 1/8" sand and 1/16" sand, you should add sand to the soil at 100 rate. All sand should be carefully graded. A-1 Stock, plants 1/2" to 1 1/2" in diameter consistent with above allowances. We can only offer a wholesale trade on all items and minimum trade to 100. Terms: Net, Cash, or C.O.D. F.C.C. South Haven, Mich. 25 at 100 rate. \$50 at 1000 rate. No charge for freight. Orders are accepted subject to prior sale or stock.

NOTE: These perennials were grown under irrigation. They are not hardened off before shipping.
